**NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS**

**STV Asia, LTD v. Premier Retail Network**

On March 2, 2006 STV Asia, LTD (“STV”) filed suit in the U.S. District Court for the Northern District of California against Premier Retail Networks (“PRN”), Thomson subsidiary since August 2005, alleging that PRN’s “in store media network” infringes two U.S. patents allegedly owned by STV. On May 15, 2007, the parties, including the Securityholder Agent for the former PRN shareholders, entered into agreements fully resolving all claims which were the subject of the lawsuit without any material impact for the group.

**Rembrandt Technologies v. Fox Entertainment and NBC**

In December of 2006, Rembrandt Technologies filed separate lawsuits against Fox and NBC in the U.S. District Court for the District of Delaware. Each suit alleges that defendants Fox and NBC infringe U.S. Patent 5,243,627 entitled “Signal Point Interleaving Technique” (the “627 patent”) by its transmission, or receipt and retransmission, over Fox and NBC television systems, of digital terrestrial broadcast signals that comply with the ATSC digital television standard. Both Fox and NBC have subsequently demanded that Thomson defends and indemnifies them in each case, alleging that Rembrandt’s infringement allegations are in essence based upon digital television transmission equipment sold to Fox and NBC by Thales Broadcast and Multimedia, a business which Thomson acquired in December 2005 from Thales (a French group, listed on the Euronext market). While Thomson has made no commitment with respect to Fox and NBC’s demands for indemnity in the event of a settlement or judgment against them, Thomson has agreed, subject to certain conditions and restrictions, to fund a portion of the defense costs in each case. The cases are scheduled for trial in October 2009 and are being vigorously defended.

**Cathode Ray Tubes Investigations**

On November 28, 2007, Thomson Inc. received a subpoena issued on behalf of the Antitrust Division of the U.S. Department of Justice (“DOJ”) investigating alleged anticompetitive conduct in the Cathode Ray Tubes (“CRT”) industry, including Color Picture Tubes (“CPT”) and Color Display Tubes (“CDT”) businesses. On January 9, 2008 Thomson received a request under art 18(2) of Council Regulation n°1/2003 from the European Commission (the “EU”) also relating to the CRT industry. In addition, class action law suits asserting private antitrust claims against Thomson (and other companies currently or formerly in the CRT industry) have been filed on January 28, 2008 in the United States in the District of New Jersey. Thomson sold its “CPT” business in 2005 and never had activity in the CDT business. It is Thomson’s policy to conduct business in full compliance with all applicable competition laws. The Company is taking appropriate measures to respond to the subpoena and the EU request.
